

## Let's Wrap it up!

As mentioned in last week's Cookie Corner, this week is the final Planned Order pickups, and we are officially moving into wrapping things up. Troops should be working towards moving the inventory around to cover any remaining orders for girls or maybe that final cookie booth. Prepare to exchange varieties that aren't selling for those that are available at inventory cupboards. The varieties are limited.

And as a reminder, only Troop Cookie Managers are allowed access to the cupboards. If another is coming in your place you still need to notify the location who is coming and what they are allowed to handle.

# Cookie Swap and Walk-in Cupboards

Everything for walk-ins is first-come, first-served status and inventory is what we have. We want to encourage all to continue to utilize the **GSKH Cookie Swap** group and help each other where you can.

If you have **damaged** product still in hand, this can only be managed at an inventory cupboard. We can exchange or give credit back to the troop.

As we prepare for the 2025 audit process, be sure and refer to the [audit process checklist](#) located on our website.
